License Compliance

Share

The screenshot shows a web article layout. At the top, there are five columns of questions: 'Can I sell or transfer my Autodesk software license?', 'Can I allow third parties to use my license?', 'May I use my license anywhere in the world?', 'Can I make a copy of Autodesk software?', and 'Can educational versions be used for commercial purposes?'. Below these is a large image of a woman with blonde hair wearing a red top. Overlaid on the image is a white box with the text 'I STAY COMPLIANT'. To the right of the woman, there is a text block titled 'Can I sell or transfer my Autodesk software license?' with two paragraphs of text explaining Autodesk's licensing terms and restrictions.

Make License Compliance a Priority—and Save
Stay compliant by managing your software assets effectively. Adopt software asset management (SAM) best practices to:

- Keep track of your software licenses
- Control and protect your software assets
- Avoid unnecessary risks of noncompliance
- Save money

Read the [top eight reasons why compliance matters](#).

Optimize your software assets with the [Autodesk Software Asset Management Toolkit](#).
